Well ventilated bed rooms will pre-vent morning headaches and lassitude. Silks and satins should never be brushed across the width, as so doing causes them to fray out, and spoils them for remaking.

While the toad is very useful in the arden to destroy slugs and insects, it is not a good thing to have near our beeives, as it also swallows heavily laden oney bees

A strip of old black broadcloth, four or five inches wide, rolled up lightly and sewed to keep the roll is place, is better than a sponge or cloth for cleansing black and dark-colored clothes. Whatever lint comes from it in rubbing is black, and does not show.

A good potatoe when cut, will show a light cream color, and a white froth will be the result produced by rubbing the cut surfacestogether. Reject that variety where drops of water appear another test is to put potatoes into a solution of salt; the good will sink, the poor float.

There is nothing better for a cut than powdered resin. Pound it until fine, and put it in an empty, clean pepper-box with perforated top, then you can easily sift it out on the cut; put a soft cloth around the member, and wet it with cold water once in a while. It will prevent inflammation and soreness.

The Curtin committee will not make

We have never been troubled with the fleas in seed beds when plants are up; we mix soot and hen droppings together and give the plants a good coating when the dewis on. This is all that have ever found necessary. After setting out, the green cabbage worm is our next enemy. The best and aftest remedy is Persian insect powder. The best way to apply it is with the insect powder gus or bellows. He powder may be diluted with ten times its bulk of flour or wood ashes, or it may also be stirred in water and applied with a liquid atomizer bellows. Er.

A writer in the Michigan Faracer says that Scotch sould in a sure remedy against sheep pests. His directions for applying it are the following: Open the fleece in several places on each side, or all the way round them is the better, and sift in a little of the soulf. A accound application is seldom necessary I have tried it and it proved satisfactory. It is cheap and harmless, and if you will try it you will be surprised at the result, and would soon be willing to offer a price for every tick found upon your sheep.

The "heated term" is upon us, and summer complaints, in the forms of cholers infantum diarrhora, and dysummer complaints, in the forms of cholers infantum diarrhora, and dysunter, prevail. Patients need, first of all, pure air; next, pure food, and next a warm bath daily. When the bowels are hot and painful, apply the wet nackin. When there is griping pains without much heat, apply fomentations. The diet for infants should be mother's milk only when possible, or cow's milk; with oatmeal, or finely ground wheatmeal, well cooked, for larger children. Wery few children who are not drugged or overfed die of summer complaints.

ARRAM S. Hewitt refuses to be a candidate for re-election to Congress. With Gox and Hewitt both absent the New York Democracy will have but a sorry representation in the House.

Presentest Cleaveland should come to Utah for a visit by all means. He would be warmly welcomed, and the trip would give him a better idea of the vastness of the country than any one can possibly have who has never been west of Buffalo.

Several St. Louis aldermen have been accused of seiling their votes to cortain railway companies for a pairty pittance of \$2,000. and in New York \$20,000 each. St. Louis is not much of a wholesale town.
